

Marysville Borough Streets Committee
October 9th, 2008
8:30AM
Minutes

1. 2009 Paving Project

Discuss which project will take preference. I would like to bid in the Spring rather than Summer since the price per barrel of oil is historically cheaper in the Spring.

The committee agreed that the next street that should be paved is Kings Highway from Caroline Drive to the Rye Township line.

2. Whitetail Crossing – Entry Sign on triangle at Caroline Drive

The Home Owners Association is interested in placing a welcome to Whitetail Crossing sign in the triangle area near Caroline Drive and Kings Highway if the borough would be receptive to it.

Committee recommended that we not allow the home owner's association to place a sign on the borough property. The committee recommended that they place the sign at the entrance to the development.

3. Adopt Ordinance

Adopt Ordinance amending 553 to reflect new stop signs and snow emergency routes. The ordinance was advertised and can be adopted at the October 13th Council meeting.

The committee agreed to recommend approval of the amended ordinance at the next council meeting.

4. Handicap Parking Request

Mary Ellen Kocher, 310 Valley Street, request that we install a handicap parking sign.

The committee agreed that the request be denied since there is no parking on Bittings alley currently and also due to the width of the alley.

Next Meeting Thursday, November 6th, 2008 @ 8:30am
