

Marysville Borough Streets Committee
October 5, 2015
5:00PM
Agenda

Chair: Allen Metzger Members: Dave Magee, Lance Barthel

Maintenance Men: Robert Laman, Ken Miller

1. Long Term Planning for Paving Streets

Scott informed the committee that there was a meeting with our financial advisor Ryen Hottenstein to find the best way to finance the upcoming projects. More information is forthcoming.

2. Rock Slope Improvement Project

No discussion

3. Stop Sign on Blackberry Street

Lance reported that there are people parking in a very bad location on Blackberry Street and 11&15. Lance said the vehicle is blocked by the house and people are trying to turn in off 11&15 and getting stopped half way sticking out on the road. Scott will check for signs and let the police know.

4. Street Lights

The committee discussed the street lights that are not getting fixed and the lights in the subway that are out and that they need cleaned. Scott reported that at least 10 to 15 times PPL has been called or faxed information about the light in the subway and they are not doing anything about it. Scott will continue to try to get this settled.

Next Meeting Monday, December 7, 2015
