New Business

1. Valve with Actuator Assembly

Staff would like to purchase 2 new actuators for the air side of the treatment process this would be around 24,000 and was budgeted. The committee wanted to know if they could do one this year and one next year. The Borough Engineer suggested that you purchase both at the same time so there are no issues. The committee recommend that this be sent to finance for consideration

2. Request from Mike Shalonis to end sewer service for his apartment

Mike Shalonis had a request to end sewer service at this apartment because he was no longer going to rent it out as an apartment. The committee was okay with this but wanted to know what had to be done to make the it one unit instead of two. Zach will check with Dan.

Old Business

1. MS4

This will be removed from the agenda since a new MS4 committee will be formed and stormwater business will be handled there.

2. <u>Delinquents</u>
