

Marysville Borough Sewer & Sanitation Committee
February 4, 2019
2:15 PM
AGENDA

Chair: Steve Copp Members: Larry Little, Lance Barthel

Operators: Lonnie, Peter

Long Term Planning:

Cleaning out the SBR's after Sewer Separation Project
Replace Mixer's
Replace Decanter's

- 1. Sewer Separation Project (down to a punch list, waiting for spring)**
Scott reported that we continue to work on the punch list and will do another check to see what has been completed and what needs to remain on the list.

- 2. Round House Drive Update**
Lonnie reported that they have pulled some wires and they are recording our setting to set up the new panel. The panel is being built off site and once completed they will install only one side or pump at a time. Continue to update as work continues.

- 3. Upgrades at Pump Station #2**
Lonnie, Pete and Scott reported that we are looking at options to update the electrical system and backup generator for this pump station. They will continue to report on their finding.

- 4. Cherne Liquid Smoke Blower and 5 gallons of Smoke Liquid (\$2,130.95)**
After some discussion the committee agreed to place this line item on the finance and council agenda's.

- 5. Sewer Main along River (river too high to do anything)**
River is still too high to do anything.

6. Lower Hydraulic Loading (engineer study)

Lonnie, Pete, Scott, Greg and Bill are all working with DEP to possibly lower the hydraulic loading rate for the sewer plant. This would help by only testing once per week, yearly renewal amounts and a few other items we may be able to reduce. We will give updates as we get them.

7. Consent Order and Agreement

Scott announced that we have received a letter stating that our Consent Order and Agreement has completed the obligations under the order. Date of completed work was July 17, 2018. Three and a half years earlier than the deadline of December 31, 2021. Job well done by all involved.

Next Meeting Monday, March 4, 2019
