2. **Curbs and Storm Drains on Overcrest and Cameron**

The discussion led to how best control stormwater and Greg talked about not putting actual curbs in but just something that could direct the water to run in a certain direction. This item was to remain on the agenda for further discussion.

3. **Snow Plowing**

The Committee wanted to know why the big truck was used for all the snow events the committee thought it was only going to be used on big snow's and not every event. Ken explained to them he can salt the entire town with one truck load. The committee was satisfied with the explanation.
